RE: SAAD Nashville

Beth Davis called me to inform me of the status of the SAAD Nashville site. The hold up is in getting lawful access to the site for continued cleanup action. A request has been sent to the Justice Dept. and we are waiting on a reply. Apparently the problem is with Ellis SAAD wanting the PRP's to pay him for access to the site. Ellis has refused to accept an access order. Beth is looking at  $\approx$  2 mo. before we hear anything.
